

**Application Form for the organization of  
ESPE Consensus Meetings**

Before completing the application form, please review the aims of Consensus Meetings established by ESPE:

- To address a specific clinical topic
- To review all evidence on the management of that topic
- To discuss the strength of this evidence and hence formulate management plans
- To generate a concise, clear write-up that can be used widely in clinical management by ensuring its publication in a relevant journal
- To highlight areas of management where evidence is lacking and research is required

An informal contact via email with the CPC Chair is advisable before efforts are made to fill in the formal application, in order to avoid collisions with similar proposals already under processing.

*Each proposal needs to be approved by the ESPE Clinical Practice Committee and Council.*

Please send a short report to the Chair of Clinical Practice Committee, Stefano Cianfarani, [stefano.cianfarani@uniroma2.it](mailto:stefano.cianfarani@uniroma2.it), with the following items:

Title of proposed consensus meeting

Rationale for the clinical topic to be addressed

Proposed Steering Committee (names and Institutions)

Estimated total budget

Budget requested from sponsoring societies

Sponsoring Scientific Societies

Funding from other sources

Sponsoring Pharma-Companies
