

**Sixth ESPE Advanced Seminar in
Developmental Endocrinology**

**Developmental Biology of GH secretion, growth and treatment
10th May– 11th May, 2012**

**Venue: University Children's Hospital, Inselspital,
CH-3010 Bern, Switzerland**

Bern, July 27 2011

Dear friends, dear participants

The Program of the 6th advanced Seminar in Developmental Endocrinology will focus on the Developmental Biology of GH secretion, growth and treatment.

The Program you will find attached. The selected speakers as well as topics chosen are of high interest.

The purpose of the Annual *Seminar* is to combine basic science and clinical paediatric endocrinology. Thus, the main intention is to attract young physicians, as well as researchers to science in the field of paediatric endocrinology, especially developmental endocrinology.

Two categories of **participants** are invited to attend:

- a. Clinicians with good experience in paediatric endocrinology, clinical research, for example, at the senior registrar or “chef de clinique” status;
- b. “Post-doc” scientists and or PhD students with a documented special interest in either paediatric endocrinology or developmental endocrinology.
- c. A maximum of 25-30 students are invited.

Costs: The costs for the Seminar as well as one overnight stay in Bern is covered by the organisers. The travel, however, and additional overnight stays are to cover by the participants and/or home institution.

Applications:

- A) Deadline: January 31 2012, however as the number of participants is limited be ready to apply as soon as possible.
- B) In the Program, there are slots for case presentations, lab results etc. Therefore, when applying please state the title of your presentation, which might be selected according the Program.

Address: The applications should be sent via E-mail to Primus-E. Mullis (primus.mullis@insel.ch), please state the topic: ESPE Seminar.

I am looking forward to seeing you in Bern and meanwhile I remain
Sincerely Yours

Primus E. Mullis
