

24th Summer School of the European Society for Paediatric Endocrinology

Sychrov, Czech Republic
September 18th to 21st, 2010

Sponsored by an educational grant from FERRING Pharmaceuticals A/S

Dear colleagues,

The aims of the ESPE summer school are to provide up to date basic and clinical teaching in selected areas of Paediatric Endocrinology, to promote discussions and interactions between younger and more senior paediatric endocrinologists and to encourage young paediatric endocrinologists to pursue an academic track.

The target audience is composed of physicians in academic training in Paediatric Endocrinology, aged 40 years or less.

The course extends over 3 days and is composed of lectures, discussions and interactive case presentations. It will be held at the Castle Hotel Sychrov located close to Prague, just before the Annual ESPE Meeting, in a quiet environment to promote interactions between participants.

The application form and further information will be available on the ESPE website http://www.eurospe.org/education/education_summer.html by November 2009. Applications should include a CV with publications (international publications recommended) and a letter of recommendation by a member of ESPE or another paediatric endocrine society. Application forms must be sent exclusively by e-mail.

The deadline will be February 1, 2010 and applicants will be notified by the end of March.

Accommodation and meals will be provided to those selected to participate, but travel expenses are not covered.

We look forward to seeing you in Prague,

The 2010 ESPE Summer School organizing committee

Lars Sävendahl, Stockholm, Sweden (coordinator)

Zdenek Sumnik, Prague, Czech Republic (local organizer)

Lucia Ghizzoni, Parma, Italy

Juliane Léger, Paris, France

Moshe Phillip, Petah Tikva, Israel
