Please insert names and addresses below

1. Principal Investigator
2. Co-Investigator
3. Co-Investigator
4. Co- Investigator
5. Official address for correspondence

Telephone:
Fax:
e-mail:

6) Title of proposed research

7) Summary of proposed research (up to 300 words)

8) Proposed starting date

Proposed duration (years)

9) Grants currently held from other bodies, which are closely related to the proposal (state name of awarding body, title of the project, amount awarded, dates of support). Please indicate how the work differs from that of this application.

10) Facilities for investigators

11) Other organizations that have considered (are still considering) this, or a similar application. Please give the result of the application (or the date of the result).

12) Ethical Approval

Does this project need ethical approval?

YES NO

Has this approval been obtained

YES NO

If yes, please state in detail, any ethical permission, which you have obtained and the titles of the ethics committees concerned.

If no, by what date you expect approval of your project?

13) Gene Manipulation

Does this project involve genetic manipulation/propagation?

YES NO

If yes, provide copy in electronic format of relevant documentation

14) Animal Testing

Do your proposals include experiments to be carried out on animals?

YES NO

Have alternative strategies been considered?

YES NO

Are the procedures authorized under legislation, or according to guidelines, for the use of animals in experiments?

YES NO

If yes, please state the official nature of the authorisation and provide copy (preferably electronic copy) of relevant documentation

15) Signatures

We have read the Regulations Governing Applications and if this application is successful we agree to abide by them. We note that no alterations can be made to the award without prior approval from the ESPE-Research Unit Council.

COLLABORATIVE PROJECT GRANT APPLICATION

Please insert requested information and submit in electronic format

Section I – Expenditure (to be completed by principal investigator)

Project Title:

Please justify support requested:

Estimate of Expenditure

	1st Year	2nd Year	Total
Expenses – as detailed overleaf			
Total			

Principal Investigator's Name

Signature:

Department:

Date:

Section II

FINANCIAL DETAILS OF SUPPORT REQUESTED

Details of expenditure	1st Year	2nd Year	Total
Materials and Consumables (please give brief description) Sub Total			
Equipment (Major items of equipment will not be supported) Sub Total			
Collaborative Visits Sub Total			
Overheads (less than 10%) Sub Total			
TOTAL			

PRINCIPAL INVESTIGATOR (name):
DETAILS OF RESEARCH PROJECT

Please include:

1. **Aims of the project** – taking care to be realistic about what you can expect to achieve in the given time.
2. **Work that has led up to the project** – described concisely.
3. **Experimental design and methods to be used in investigating this problem** – providing sufficient detail for the reviewers of your proposal to assess the likelihood of its success, and making clear the scientific contribution to be made by each of the collaborating investigators.

N.B: Not more than five pages should be used to describe the research programme (font 12pt, word counts no more than 5000). Not more than two pages should be used for references.
