**1. Title of proposed Consensus Meeting or Guideline.**

**2. Rationale for the clinical topic to be addressed**

*Please provide us with a detailed background of the literature demonstrating the need to develop guidelines in the proposed field, as well as a thorough explanation as to how these guidelines will improve clinical practice of Pediatric Endocrinology and how they will benefit clinicians and patients. It should be mentioned if and when a similar action has already been undertaken and, if so, whether considerable time has elapsed since then or new advances in the field have taken place requiring an update on the topic.*

**3. Proposed Steering Committee (names and institutions)**

*It is expected that all clinicians and/or scientists involved are experts in the field, and that there is appropriate diversity in gender and geographical representation. Experts from other international pediatric endocrinology societies may be invited to participate.*
